

Job Opportunities Faculty Member

Yokohama City University is looking for faculty members who can conduct research and provide education in the field of biostatistics.

Biostatistics is the study of how to formulate plans for clinical research, how to collect data efficiently (designing), and how to analyze the data obtained to create value (analysis). In our Department of Biostatistics, we aim to build systematic methodologies for this purpose, which will enable us to correctly draw inferences about treatment effects and causal relationships.

We are looking for an individual with broad knowledge of biostatistics who can perform tasks ranging from planning clinical research designs to analysis at the YCU center for Novel and Exploratory Clinical Trials (Y-NEXT), actively engage in educating students at the School of Medicine and Graduate School of Medicine, and promote high-quality research at the Department of Biostatistics.

Department	School of Medicine and Graduate School of Medicine
Position Title	Associate Professor or Lecturer
Number of positions	1
Subject Areas of Teaching Responsibility	Education and research in the YCU Medical Center in the field of Biostatistics Research support at the Y-NEXT
