

## **Sister Institution Network Fund (SINF) Request for Applications 2016-17**

**DEADLINE: December 19, 2016**

To continue to enhance collaborations in research and education between MD Anderson Cancer Center (MD Anderson) and collaborating institutions, many of them in our Sister Institution Network, we are pleased to announce the request for applications for funding by the Sister Institution Network Fund (SINF) mechanism.

### **Eligibility**

Only projects developed in collaboration between faculty/staff at MD Anderson and one or more collaborating institutions, with principal investigators (PIs) from each institution, will be considered. For eligible collaborating institutions participating in this cycle, please see **Table 2**. All MD Anderson faculty at the ranks of Assistant, Associate and full Professor are eligible, including term tenure track/term tenured faculty, and faculty with Research Faculty Appointments or Clinical Faculty Appointments. Funds awarded may not be used as a bridge for interim funding of ongoing work. **Faculty members who currently receive funding from the SINF cannot apply for a second grant.**

### **Funding**

The funding will consist of up to \$100,000 over two years for MD Anderson investigators, with funding levels and mechanisms for investigators at collaborating institutions to be determined by their home institution. Non-MD Anderson PIs need to verify with their respective home institutions for details on available funds and additional requirements if any (please see contact information in **Table 2**). Each participating institution will provide funding independently to their respective PIs.

### **Network Projects & Moon Shots Related Projects**

In this round of SINF funding, preference will be given to proposals which include at least one Sister Institution, involve three (3) or more institutions (includes MD Anderson and two or more eligible institutions listed in **Table 2**), and that connect with MD Anderson's [Moon Shots Programs and Platforms](#). We also encourage applicants to make use of the Experts Network website, [Influent System](#) which includes information on all MD Anderson faculty and faculty from a majority of the Sister Institution network. As always, Global Academic Program's (GAP's) staff is also available for consultation and to help identify collaborative opportunities ([GAP@mdanderson.org](mailto:GAP@mdanderson.org)). For a list of currently funded projects, please visit GAP's SINF website [www.mdanderson.org/SINF](http://www.mdanderson.org/SINF).

### **NEW: Education Projects**

In this cycle we invite the submission of education projects, which will be considered separately from research projects. Examples of education activities that could be supported by the SINF include training programs developed with and for external partners, joint courses/short courses/events aimed at trainees developed together with partners, or collaborative distance learning.

### **How to Apply**

Detailed instructions and additional explanatory material on the SINF mechanism is provided on our website at [www.mdanderson.org/SINF](http://www.mdanderson.org/SINF). The collaborating investigators prepare a single application file

(please see **Table 1**) that is simultaneously submitted to each participating institution electronically (for details, please see **Table 2**).

**Table 1: A complete application consists of a single PDF file with the following, in order -**

SINF Application Form	Application forms from collaborating institution(s)	Biosketches / CVs of each PI	Research Proposal
	<p>If collaborating institution requires a separate form, obtain from contact listed in <b>Table 2</b>, below.                      If not, omit.</p>		<p>Maximum seven (7) pages for the research plan and bibliography. All pages must be typed using 10-12 point font size; ¾ (.75) inch side, top and bottom margins; and numbered at the bottom, on US letter paper.</p>
<p>Obtain form <a href="#">here</a>.</p>		<p>NIH Biosketch format mandatory for MD Anderson PI and preferred for all.</p>	<p>For details on how to organize, see SINF Application Guidelines <a href="#">here</a>.</p>

**Table 2: Eligible institutions, contacts, and the email address to submit SINF Application.**

For application, guidelines and additional information, please visit the SINF website -

[www.mdanderson.org/SINF](http://www.mdanderson.org/SINF).
