

Exchange Student Program between Paris Descartes University and YCU

SMUR Necker

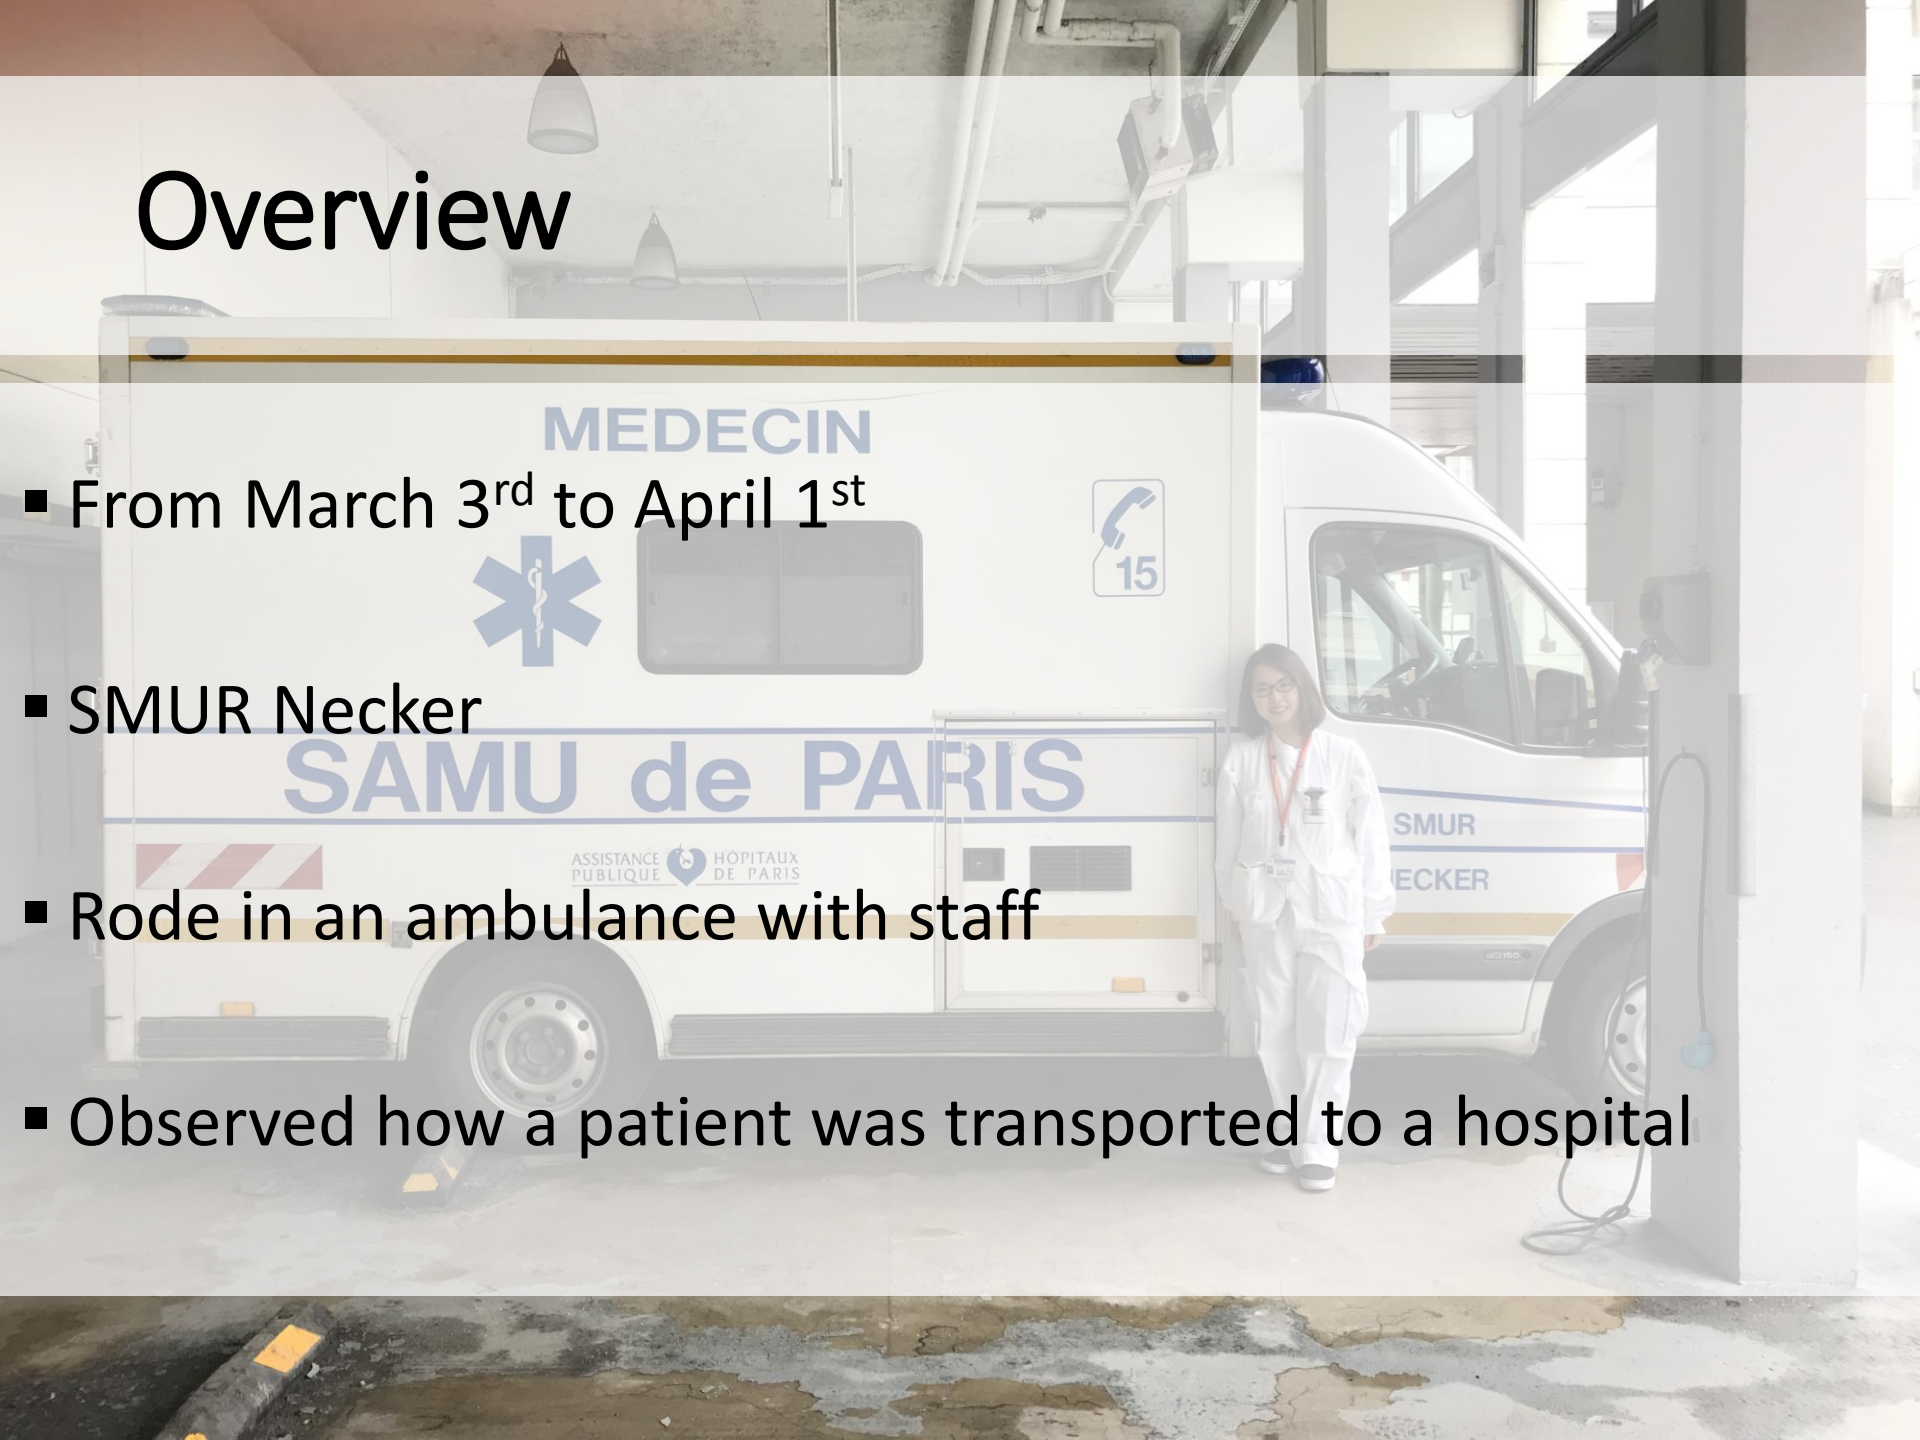

Yokohama City University School of Medicine, Medical Course

Momoka Tanabe

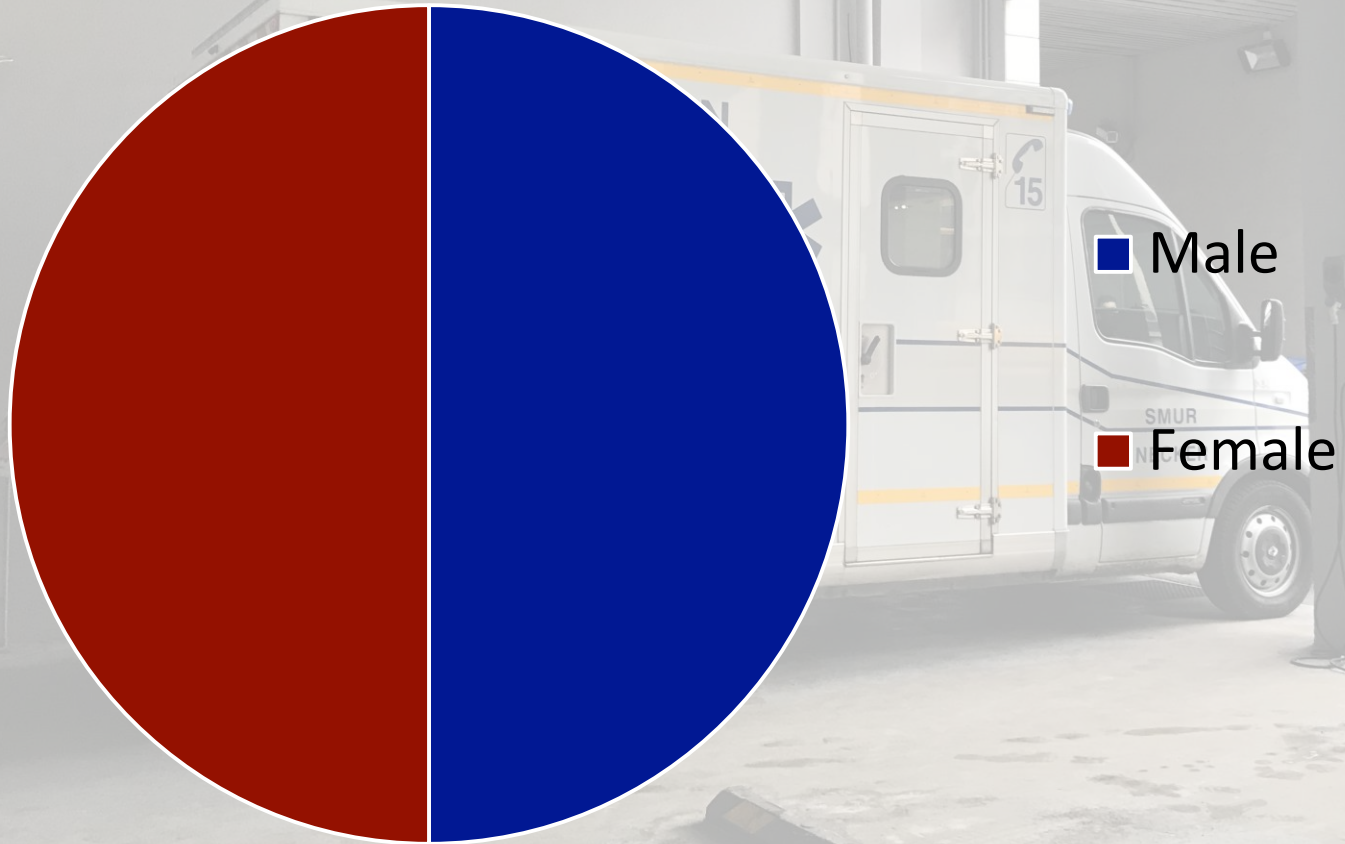

Overview

- From March 3rd to April 1st
- SMUR Necker
- Rode in an ambulance with staff
- Observed how a patient was transported to a hospital

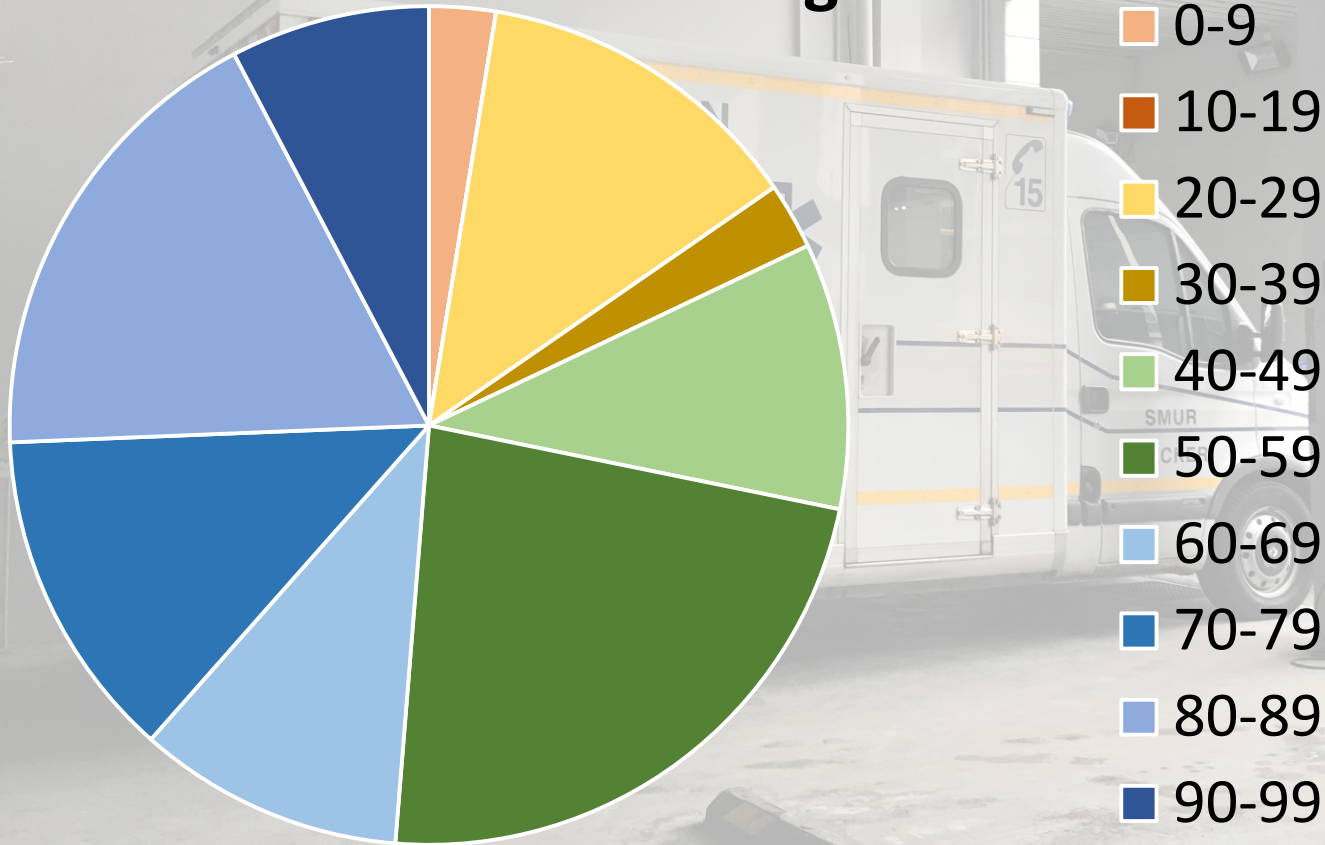

Cases

Sex

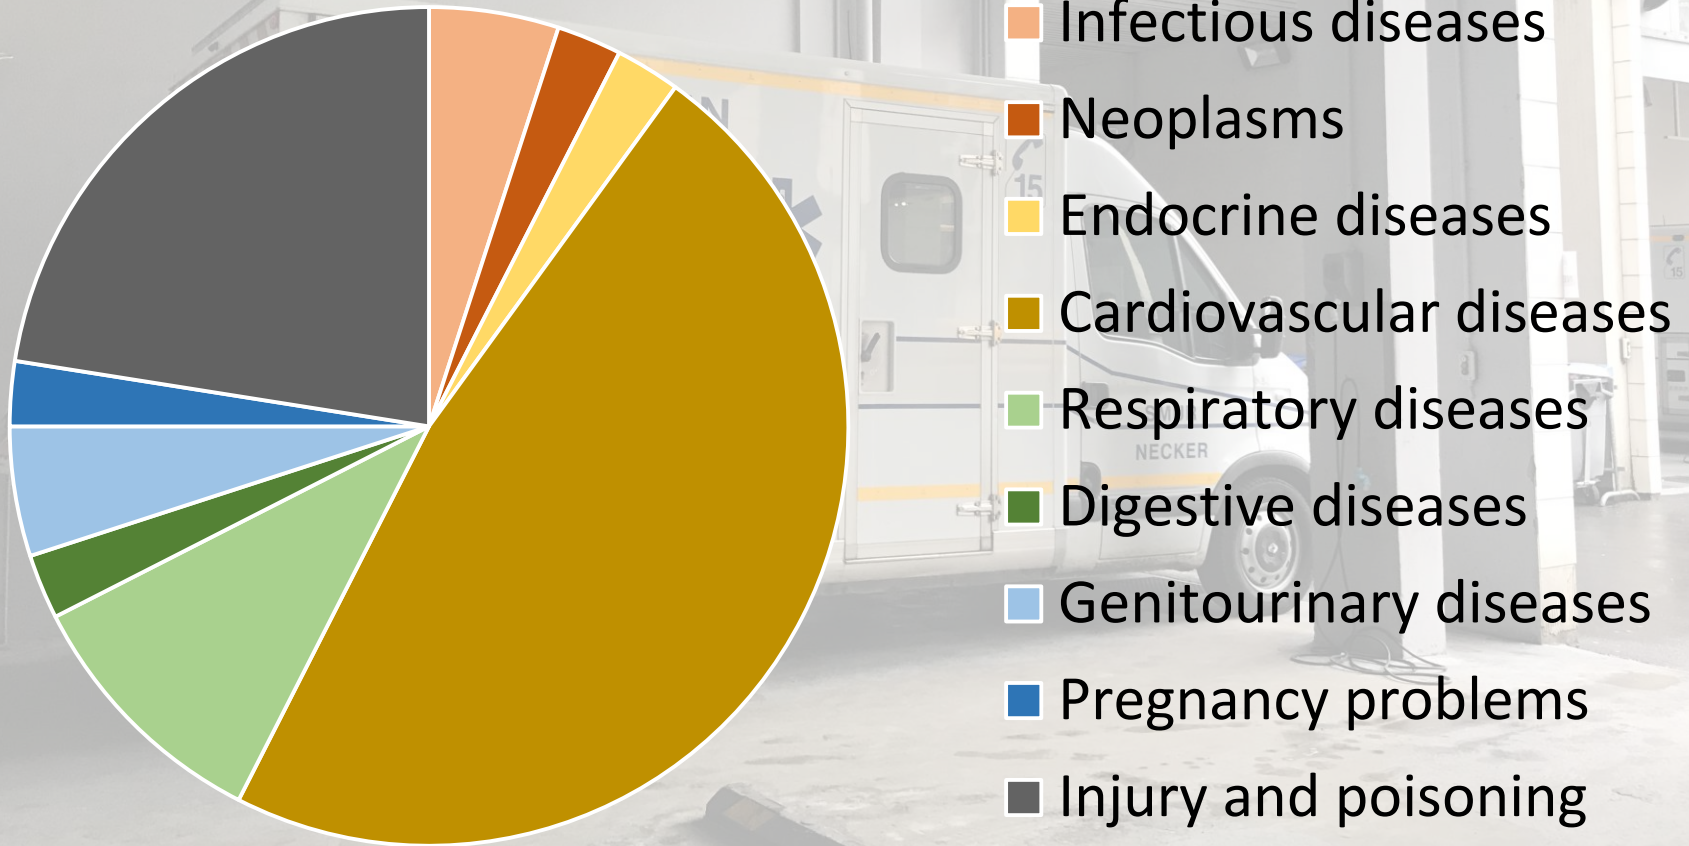

Cases

Age

Cases

Classification

Case1 Chest Pain

- 90-year-old man
- Suffered from chest pain at home
- **18-lead ECG**: tachycardia, ST elevated
- **Troponin T rapid test**: positive
- Diagnosed as AMI and VT
- Transported to an angiography room
at Hôpital Européen Georges-Pompidou

Case2 Acute Intoxication

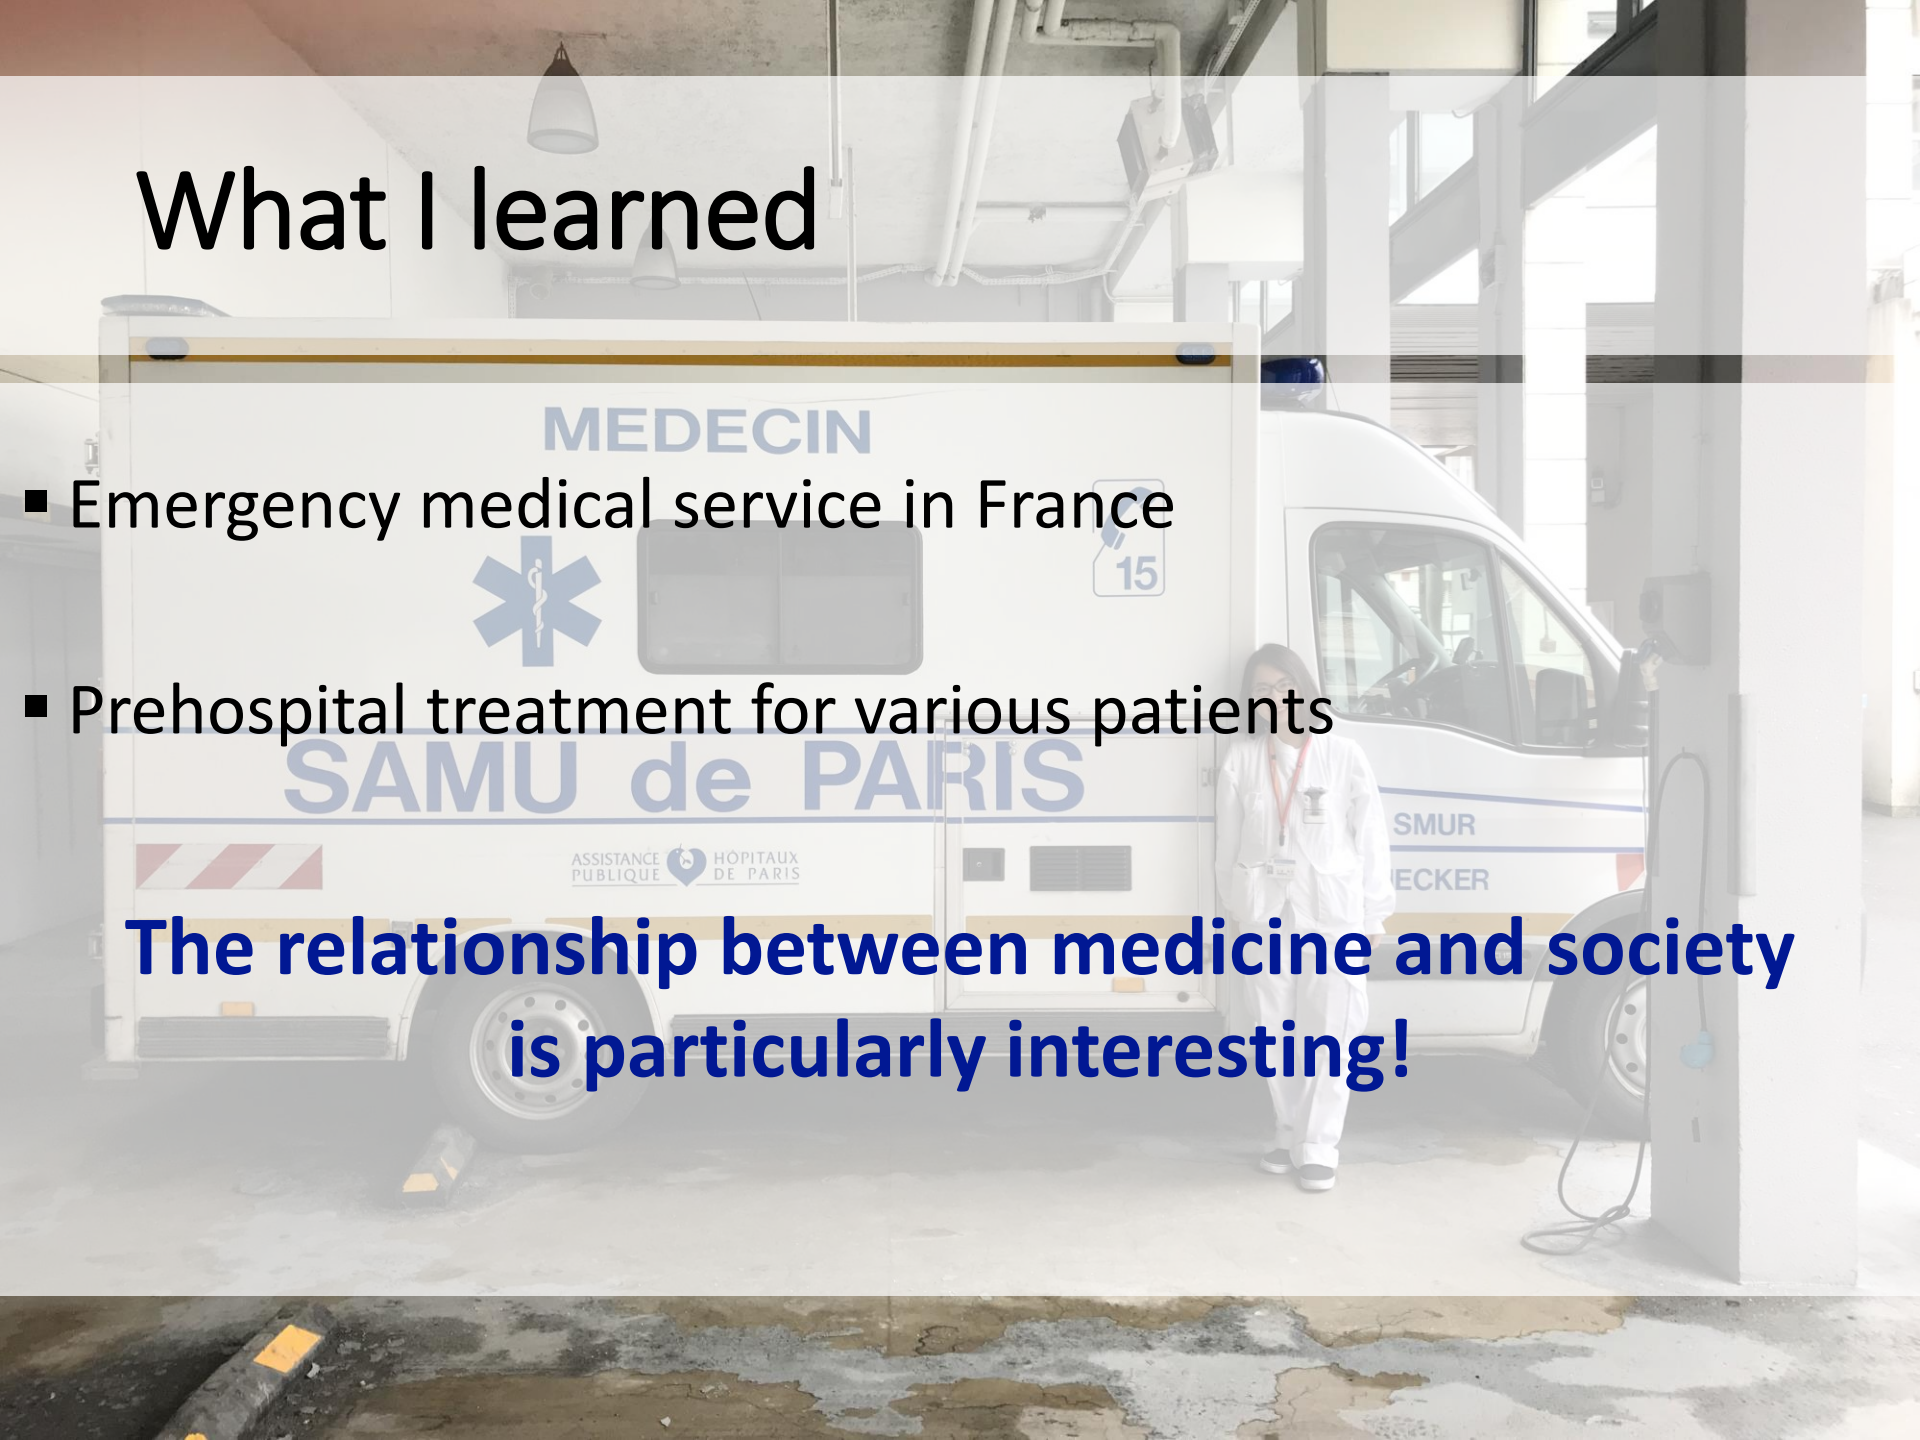

- 40-year-old man
- Drank toilet limescale remover at home
- Diagnosed as acute intoxication
- **Intubation in the ambulance**
- Transported to the Poison Control Center at Hôpital Lariboisière - Fernand-Widal

What I learned

- Emergency medical service in France
- Prehospital treatment for various patients

The relationship between medicine and society is particularly interesting!
