

International Medical students' Online Exchange

# Medical Education

## amidst the COVID 19 Pandemic

January 29, 2021 (Fri) 7pm-8:50pm (Japan)

### Outline

The COVID-19 pandemic has impacted medical education in many ways. Medical schools have implemented new methods of education/training during the crisis. The purpose of this event is to share the experiences which medical students have received under the COVID-19 crisis and discuss the strength and limitations of current educational methods and how this crisis has influenced the future perspectives of doctors in training.

Let's reunite and enjoy international exchange online!

### Program:

Session 1 Sharing our experiences

Session 2 Group Discussion

Session 3 Group Presentation

## NUS & Yokohama City University (Japan) Joint-Event
